

REMARKS

This paper is responsive to the Notice of Drawing Inconsistency With Specification, mailed January 30, 2009. In response to the "Notice", the section of the application entitled "Brief Description Of The Drawings" has been amended to recite a description of Figure 7. Support for the amendment to the specification is found at paragraph [0031] of the application as filed. The amendment merely corrects a minor inconsistency between the "Brief Description Of The Drawings" and the body of the specification, and no new matter has been added.

As a result of this amendment, it is believed that the application is now in condition for issuance.

Respectfully submitted,

Date: February 10, 2009

/Alan D. Minsk/
